Reference: C.I.III.07/2017

Position title: Postdoctoral Researcher

Group: Neuronal and Tissue Regeneration lab

Job description (function and tasks):

The Neuronal and Tissue Regeneration Lab (http://www.cipf.es/regeneracion-neuronal) offers an open position for a post-doctoral researcher to work in an experimental model for spinal cord injury. The Post-Doc will experimentally lead and develop a therapeutic strategy based on cell therapy, by neural precursor cell transplantation, in combination with drugs and genetic manipulations. The project implies in vivo and in vitro studies, with histological analysis and molecular and cellular related mechanism of action analysis. The Post-Doc will also be involved in the design of experiments, writing and presentation of results, and participation in regular meetings, etc. Supervision of personnel associated with the project may be required.

Research Center description:

The Prince Felipe Research Centre, CIPF, was created to develop first-rate, competitive and internationally relevant research in the fields of Neurobiology, Advanced Therapies, Rare & Genetic Diseases, Molecular Mechanisms of Disease and Computational Genomics. The research centre, located in Valencia, occupies an area of 32,000 m2 and it is equipped with the most advanced infrastructures, facilities and technological equipment.

Basic requirements of the position:

- Qualifications required: Candidates must have at least Degree in biology, medicine, pharmacy, biochemistry, biotechnology,…
- Doctoral degree

Merits:

- More than 2 years post-doctoral experience
- High level of spoken and written English
- Experience in the field of molecular biology and knowledge of genetic modification tools will be positively valued
- Good communicator, assertive and ability to work in a multidisciplinary team

Valuation Criteria:

1. Training - 15%
   1.1. Academic Qualifications 5%
   1.2. Complementary Training 10%
2. Experience in molecular biology: 25%
3. Experience in genetic modifications: - 25%
4. Experience in neuroscience: 25%
5. Other merits - 10%

Contract
- Professional category: Research Collaborator III
- Salary Level: (Salary level as stipulated in the Convenio de Sanidad Privada de la Provincia de Valencia)
- Funding Source/Project: CIPF
- Duration: 1 year
- Starting date: September
- Working day: Full time
- The deadline for receipt of resumes will be open until 20th of August

How to present your candidacy?
Interested candidates should send their CV, cover letter, references and supporting documentation of merits only by email to the following address: selection@cipf.es.

In order to comply with Law 15/1999 of December 13, for The Protection of Personal Data, we inform you that the personal data contained in your resume will be included in a personal data file owned by the Foundation Prince Felipe Research Centre, CIPF, to enable you to participate in our recruitment process, and if appropriate, it may be used for processing appropriate aid, grants and funding to enable this recruitment.

By submitting your resume, you agree to your personal data to be treated in the commented terms, allowing CIPF to share this data with other public and private institutions with the exclusive aim of applying for grants for the financial funding of this institution and its research projects linked to your data.

You may exercise your rights of access, rectification, cancellation and opposition by writing to CIPF, Calle Eduardo Primo Yúfera, 3, CP 46012 Valencia and attaching your ID.

Please indicate the offer reference number in the subject field. If you have any questions about this offer, please contact the Human Resources Department by email to: recursoshumanos@cipf.es
