Reference: C.I.III.08/2017

Position title: Postdoctoral researcher

Group: Molecular and Cellular Pathology of Alcohol

Job description (function and tasks):

Person with experience to work as a member of the laboratory team Cellular and Molecular Pathology of Alcohol, whose objective is to study the molecular mechanisms of the actions of alcohol in the adult and developing brain. The candidate will join the group to address the objectives of basic and translational projects in collaboration with members of the Addictive Disorders Network, Instituto de Salud Carlos III, as well as the search for biomarkers, including miRNAs, within the project SAF2015-69187R. The methodology focuses on basic techniques of Biochemistry and Molecular Biology (immunoblots, immunofluorescence, quantitative PCR, flow cytometry, etc.) and Immunology (detection of cytosines and chemokines).

Research Center description:

The Prince Felipe Research Centre, CIPF, was created to develop first-rate, competitive and internationally relevant research in the fields of Neurobiology, Advanced Therapies, Rare & Genetic Diseases, Molecular Mechanisms of Disease and Computational Genomics. The research centre, located in Valencia, occupies an area of 32,000 m2 and it is equipped with the most advanced infrastructures, facilities and technological equipment.

Basic requirements of the position:

- The candidate must hold a PhD in Health Sciences or Biotechnology
- Accreditation to work with experimental animals in Spain, category B or C.
- High level of spoken and written English

Experience required:

- Biological Techniques, RNA and DNA extraction, RT-PCR, miRNAs
- ELISA, immunoprecipitation, Western Blotting
- Experience in working with experimental animals, mice, KO mice...
- Accreditation B o C to work in experimental animals

Merits:

- PhD in Biology, Pharmacy, Medicine, Biotechnology or similar
- Academic CV and scientific work in Neuroscience and in related subjects
- Stay in other laboratories and experience in the proposed techniques
- Be communicative, assertive and skilled to work in a multidisciplinary team
Contract

- Professional category: Research Collaborator III
- Salary Level: (Salary level as stipulated in the Convenio de Sanidad Privada de la Provincia de Valencia)
- Funding Source/Project: RED-RTA with reference number: RD16/0017/0004, Instituto Carlos III. Financed by FEDER funds

- Duration: Maternity replacement
- Starting date: September
- Working day: 30 hours /week
- The deadline for receipt of resumes will be open until August 20th, 2017

How to present your candidacy?

Interested candidates should send their CV, cover letter and references only by email to the following address: selection@cipf.es.

In order to comply with Law 15 /1999 of December 13, for The Protection of Personal Data, we inform you that the personal data contained in your resume will be included in a personal data file owned by the Foundation Prince Felipe Research Centre, CIPF, to enable you to participate in our recruitment process, and if appropriate, it may be used for processing appropriate aid, grants and funding to enable this recruitment.

By submitting your resume, you agree to your personal data to be treated in the commented terms, allowing CIPF to share this data with other public and private institutions with the exclusive aim of applying for grants for the financial funding of this institution and its research projects linked to your data.

You may exercise your rights of access, rectification, cancellation and opposition by writing to CIPF, Calle Eduardo Primo Yúfera , 3, CP 46012 Valencia and attaching your ID.

Please indicate the offer reference number in the subject field. If you have any questions about this offer, please contact the Human Resources Department by email to: recursoshumanos@cipf.es
